

## REACH COMPLIANCE/SVHC DECLARATION

Thursday, December 18, 2025

REACH is the EU regulation governing the manufacture and import of chemical substances. REACH is an acronym for the “registration, evaluation and authorization of chemicals” and has been in force in all EU Member States since June 1, 2007. Asbury Advanced Materials has a significant presence in Europe, and we make sure to comply with all applicable aspects of REACH. See below for REACH and REACH SVHC status of our products.

REACH **exempt** Asbury materials are:

- Natural occurring graphite (Annex V, Par VII),
- Metallurgical coke (Annex V, Par X),
- Anthracite Coal (Annex V, Par VII),
- Calcined petroleum coke (Annex V, Par X)
- Green petroleum coke (Annex V, Par X)

REACH **registered** Asbury materials are:

- Edge-oxidized graphene: # 01-2120768618-38-0011
- Synthetic Graphite: # 01-2119486977-12-0027
- Expandable graphite: # 01-2119514421-54-0014

There are no Asbury grades currently on the list of SVHC or containing constituents that are on the list of SVHC, including those listed in Annex XVII.

Thank you,
